

Biography

I was born and raised in Northwest Ohio. As a young adult I was active in many sports including karate, basketball, inline skating, and tennis. My love for sports, travel and the outdoors continued into adulthood. I have traveled to Sweden, Haiti, Canada, Bulgaria, Hungary, Ukraine (Crimea), Italy, and the Czech Republic. I enjoy high intensity sports and a high intensity lifestyle. I received an associate's degree from Owens Community College in Science before I transferred to Bowling Green State University in Bowling Green Ohio. I received my Bachelors Degree in Liberal Arts from BGSU in December of 2003. Soon after receiving my B.L.S, I attended Northwest Consortium for Public Health and received my Masters degree in public health with a concentration in Epidemiology and Environmental and Occupational Health. I worked for Toledo-Lucas County Health Department for a short time before moving to south Florida. Since being hired by Somerset Academy, I'm currently teaching High School physics, environmental and 8th grade general science. I'm enjoying the warm tropical climate and diverse culture of south Florida. I'm excited to discover what south Florida has to offer. Ms. Crystal Thompson
