

Ms. Bernstein has been involved in the theatre since she was thirteen years old. She started off acting by attending a Performing Arts Camp for teenagers. This is where her love for the theatre began. She continued to attend the Performing Arts Camp for three summers until she then entered Nova High School. This is when she became active in the programs through her High School and through Fort Lauderdale Children's Theatre (FLCT). At FLCT is where she found her love for working with children. After graduating from Nova High School with honors, she then went to the University of Florida where she got her BA in Theatre with a Specialization in Secondary Education, and graduated with honors. Ms. Bernstein is very excited about her first year at Somerset Academy and cannot wait to help her students express themselves, and learn to become more creative.
